

ERRATA

Revised Iseismal Maps for the 1956 Bay of Plenty and 1987 Edgecumbe, New Zealand, Earthquakes – Implications for Seismic Hazard and Risk by David J. Dowrick in Vol. 40, No. 4, December 2007, pp 200-206.

Two small but confusing errors were made in the production of Figure 7(a) on page 205 of the above paper, ie the southeast end of the MM4 isoseismal was mis-labelled and the label on the south end of the vector A was misplaced. The corrected version of the Figure is presented herewith.

My apologies,

David Dowrick

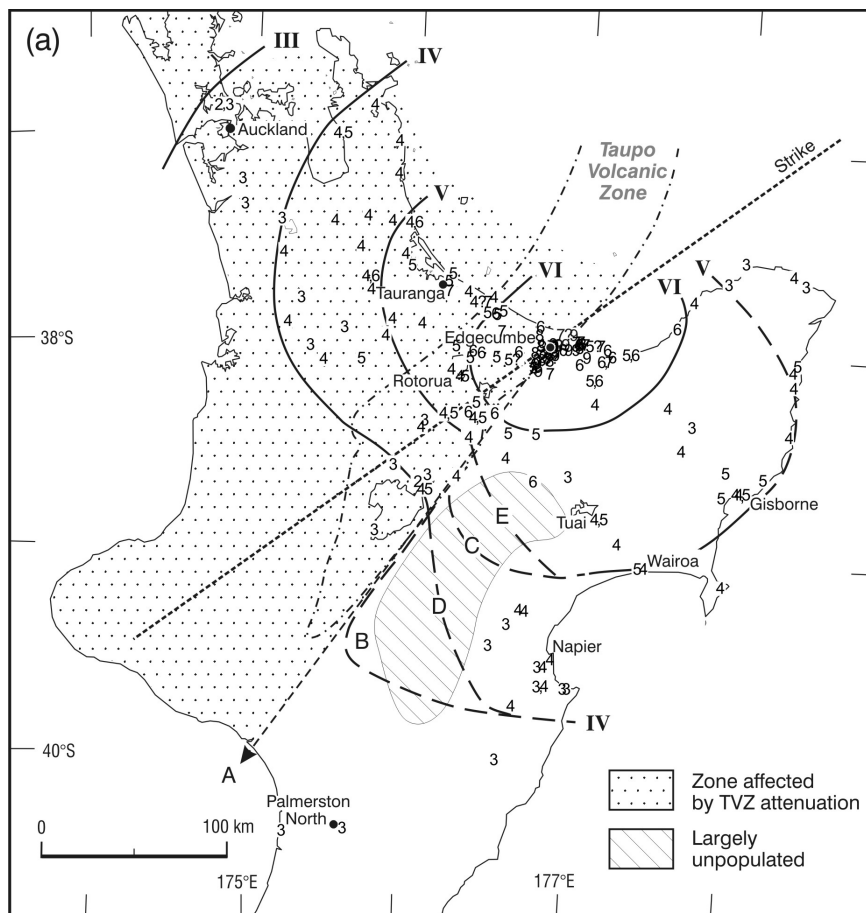

Figure 7a. Revised isoseismal map of the 1987 Edgecumbe earthquake, (a) overall map.
